Hi Dan, I am on a temporary assignment and not currently working in the press office. Please refer calls to Francisco Arcaute (312-886-7613) or Pete Cassell (312-886-6234) this morning and they'll track this down.

Subject: BP oil spill response

Hi Phillippa,

Our on scene coordinator says you guys are taking the lead with media calls for the BP oil spill that happened last night on Lake Michigan. Who is the best person in your office I should refer media to? I've just been confirming that there was a release and that IDEM, US EPA, and US Coast Guard; along with BP's emergency response are on the scene to contain the spill.

Thanks!

Dan Goldblatt
